

PROTOCOL WILL BE SIGNED IN FEW DAYS

Document Calls for Reciprocal Crossing of Border in Desert Places to Pursue Bandits.

Some of the propositions of the proposed protocol between the United States and Mexico became known yesterday. The text of the agreement has been practically completed and probably will be signed within a few days.

Reciprocal crossing of the international boundary by regular troops of the two governments will be permitted only in pursuit of bandits from one country raiding the other.

It is specified that the crossing shall take place only at "neutralized" or "desert" parts of the boundary line, that certain specified points shall not be crossed; that the invading force shall not camp in any town or city or enter a fortified city; that where crossings permit advance notice of the crossing be given the nearest military or civil authority in the country to be invaded.

One provision is that abuses committed by invading forces shall be punished by their government in accordance with the laws of their country. Provision is also made for offenses committed against the invading force by inhabitants of the one government being responsible to the other.

It was said today that the railroad problem will be considered apart from the protocol.
